Arul Raj M

B.E. Computer Science Student @ M Kumarasamy College of Engineering | Aspiring Software Engineer | AI & Full-Stack Development Enthusiast | Problem Solver | Passionate Learner
Oddanchattram, Tamil Nadu, India

Summary

I am a second-year B.E. Computer Science student at M Kumarasamy College of Engineering with a strong interest in software development, artificial intelligence, and emerging technologies. I enjoy learning new programming concepts, exploring innovative solutions, and applying my knowledge through academic and personal projects. I am passionate about building a strong foundation in computer science and continuously improving my technical and problem-solving skills. I believe in learning through practice, collaboration, and curiosity. My goal is to grow into a skilled software engineer who can contribute to impactful and technology-driven solutions. Currently, I am focused on enhancing my knowledge in programming, AI, and full-stack development while exploring opportunities to gain practical experience and industry exposure.
